“Community is a big part of the social side of ESG, such as paying your fair share of taxes, making donations and other philanthropic work, participation in service organisations, supporting community projects. Companies should be trying to make sure that communities are not only a good place to work, but to live and play.”

ESG SOCIAL

Sanitech is the preferred partner to deliver and execute meaningful CSI Projects in the hygiene, sanitation & water fields.

ESG GOVERNANCE

Sanitech’s purpose is to deliver health & dignity to all
